

Chance Corbeil

6507 NE 66th Ave

Portland, OR 97218

Phone: (503) 806-1348

Email: chance@wpstrategy.com

Websites: chancecorbeil.com and wpstrategy.com

I design and develop websites.

My skills includes everything from ecommerce to SEO, responsive design to page speed. If you can describe a website's goals, I can tell you how to build it.

I work directly with individuals and other studios. Think of me as an on-demand member of your team. I do the work myself; no outsourcing.

I specialize in WordPress development. I build custom themes, create and edit plugins, and I know WordPress inside and out.

I am available to hire for website projects. I prefer freelancing, and I operate using my business WP Strategy. But I am also open to working as an employee for the right business. If you are looking for an expert WordPress developer, short term or long term, I am a reliable choice.
